

Setting up FirstClass Mobile on Your iPhone

FirstClass Mobile is available for download at no cost to existing FirstClass users on the iTunes App Store.

Once you have downloaded FirstClass Mobile from the iTunes App Store, please follow the simple instructions below to configure your iPhone™ or iPod touch®:

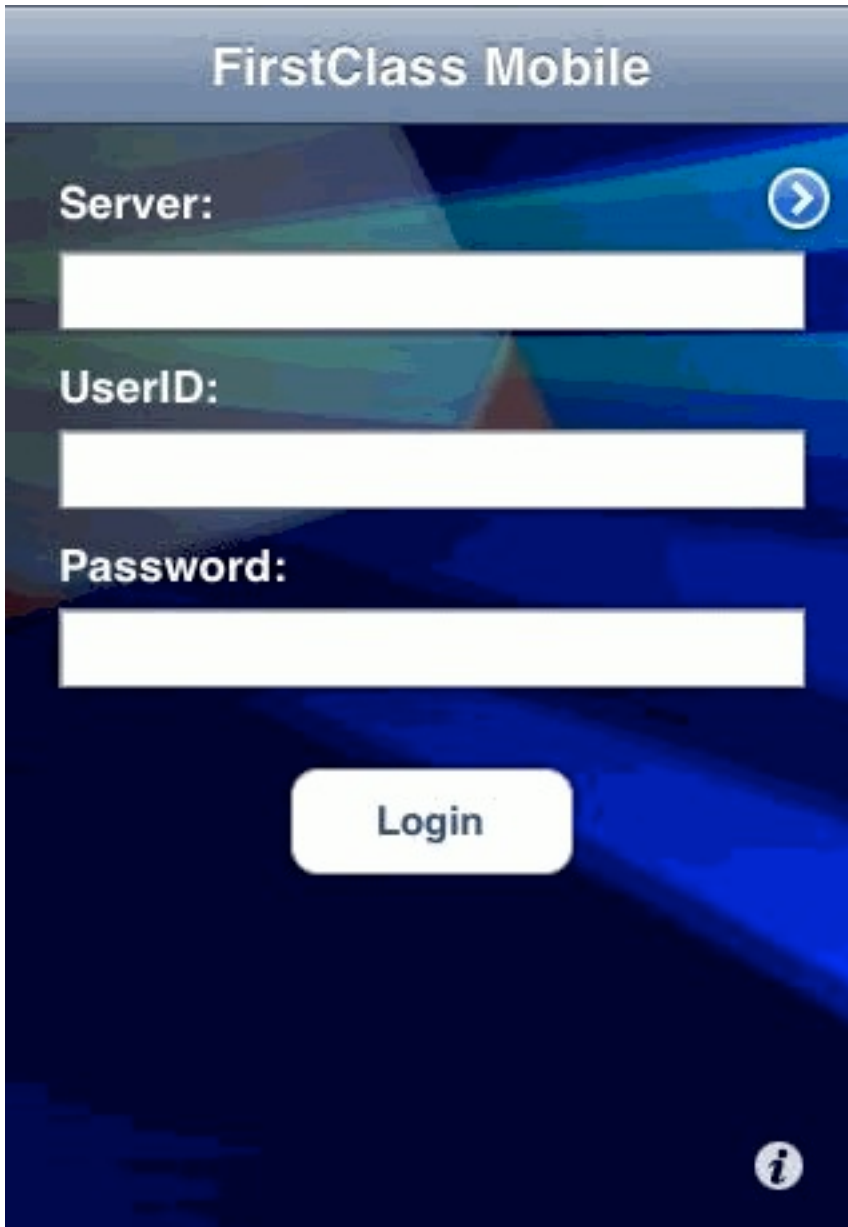

1. Tap on the **FirstClass icon** on your device. All other icons on this screenshot are the default Apple icons in their default locations.

2. Fill in your **Server name**, **User ID** and **Password**. This is the same address you enter on your desktop computer. If you do not know your server name please contact your administrator.

The AUSOM server is **fc.ausom.net.au**

The top **arrow button** will allow you to pick between multiple saved server logins if you've configured more than one.
